Subject: Re: Ted's Driveway

As a fellow member of the infrastructure committee, I authorize you to call black diamond and ask them to move their equipment. This is something you can do, in case it was not clear. As for the rest of the noise noted below:

1. If there is a fire on my property during a fire restriction it is your moral obligation to call the proper authorities and report it. Otherwise you are complicit. If you have specific evidence of a fire during any fire restriction, I would like to see it. I do have video of a guest of the Graff's smoking on my property while driving a motorcycle during the fire ban. I am happy to share that video.
2. I have a right to protect my property from unauthorized access to include vehicles that can (and have) damaged my road. I do not have any road base laid yet and people driving up there will rut and disrupt the fresh surface. I just invested about \$6,000 in road work this week and I am not interested in sacrificing my road for other people's enjoyment.

I will call Black diamond right now and relay our concern about the grader (it was only supposed to be there for the night). I know Steve has been in the hospital for the last few days. I am not happy about it either.

Thanks
Ted
