October 25, 2020

To whom it may concern,

Thanks to the incredibly hard work and diligence by Sheri Keller and Charlie Nolan, the 30,000-gallon cistern at the entrance to the Roosevelt Ridge community is complete. It was tested on October 16, 2020 and was fully functional.

The modified agreement between Timberline Fire Protection District, The Roosevelt Ridge HOA, and the Bramante's has been executed.

Timberline Fire Protection District will no longer withhold building permits due to this issue.

Paul Ondr, Fire Chief
